Application Deadline January 11, 2019

Tamarind Institute
A division of the College of Fine Arts
PRINTER TRAINING PROGRAM
The professional printer training program runs through the 2019 - 2020 academic year and accommodates approximately eight students. Student printers work under the guidance of the director of education and are immersed in the Tamarind workshop and its programs.
During the Fall semester, students participate in an intensive technical course that covers the theoretical and applied aspects of the medium; during Spring semester students gain practical collaborative experience as they work with visiting artists and students.

APPRENTICE OPPORTUNITIES
Printers who successfully complete the Printer Training Program may apply for a year-long apprenticeship in Tamarind’s professional workshop. Apprentices are selected each year to work under the supervision of Tamarind’s master printer to collaborate with visiting artists, print editions, participate in shop management, and conduct an extensive research project. Apprentice printers who successfully complete the year-long program are certified as Tamarind Master Printers.

M.F.A. IN COLLABORATIVE LITHOGRAPHY
Visit tamarind.unm.edu/programs to learn more about this combined M.F.A. with the Department of Art, and the dual-application process.

ALUMINUM PLATE LITHOGRAPHY SUMMER WORKSHOP
JULY 8 - AUGUST 2, 2019
Tamarind Institute offers a four-week technical workshop for teachers and students of lithography. This course includes the theory and chemistry of plate lithography, drawing techniques and materials, processing, and editioning. Class meetings, including lectures and demonstrations, are held Monday through Friday, 9 a.m. - 5 p.m. Participants are responsible for materials, and a $1500 workshop fee. (Credit is available through The University of New Mexico for those who enroll and pay tuition.) Class is limited to eight participants.

APPLICATION DEADLINE
JANUARY 11, 2019
